

The Science: Exclusive R&D Partnership with Global Leader in Regenerative Stem Cell Therapy, S.BIOMEDICS

S.BIOMEDICS is a global leader in stem cell-based regenerative medicine, holding over 154 IPs and global patents. Their groundbreaking technologies, including TED™ for Parkinson's disease and FECS™ for critical limb ischemia, are advancing medical treatments.

PLURY leverages S.BIOMEDICS' FECS™ technology to introduce a new approach to skin regenerative solutions.

Who is s4S SOLUTION™ for?

Unlike artificial treatments or surgeries, s4S SOLUTION™ rejuvenates the skin by stimulating the fibroblast cells to restore youthful skin. The results build gradually, offering a perfect solution for those seeking a naturally effective and healthy approach to anti-aging.

skin4SKIN SOLUTION

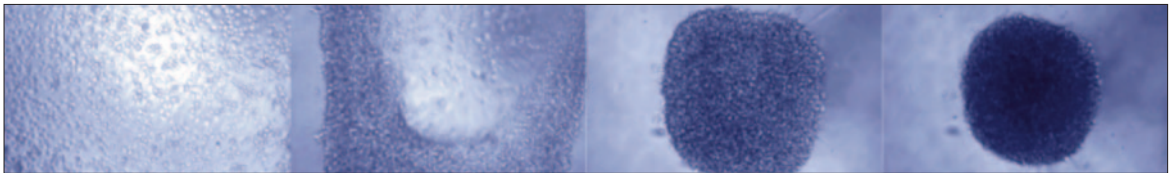

With s4S SOLUTION™, we are pioneering a revolutionary skin solution that introduces an entirely new approach to enhancing beauty, youthfulness, and health.

What is s4S SOLUTION™?

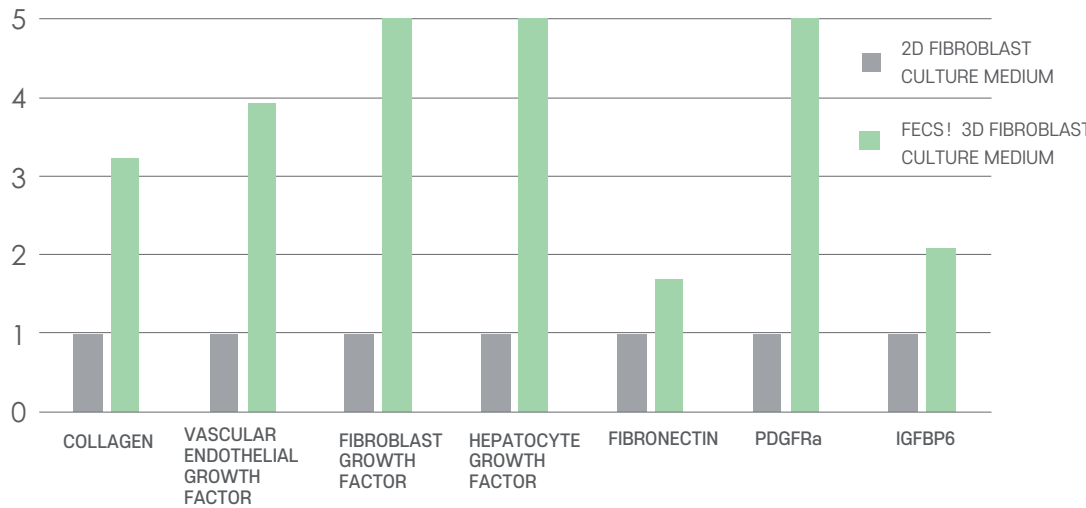

s4S SOLUTION™ is a revolutionary cell therapy skin solution made of 100% of the secretion of fibroblast skin cells.

- This secretion, CFC-FECS-DF, is powered by our patented FECS™ technology
- FECS™ transforms these fibroblasts into “super cells,” boosting their regenerative ability
- Revitalizes the entire skin cellular ecosystem

Single cells self-organizing into 3D spheroids, becoming “super cells”.

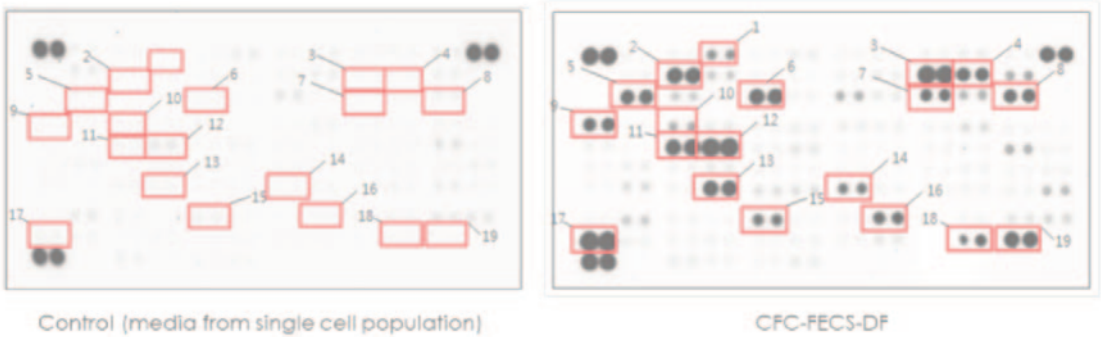

How Does s4S SOLUTION™ Work?

Globally patented FECS™ technology powerfully activates fibroblast skin cells, creating "super cells." The secretions produced during this process contain exceptional skin re-generation abilities.

Naturally Reawaken Your Skin’s Youthfulness

CFC-FECS-DF has 1,000+ growth factors and proteins

Our powerful ingredient, CFC-FECS-DF, contains growth factors, proteins, and other powerful substances to help fibroblast cells restore their youthful capabilities

s4S SOLUTION™ reactivates fibroblast skin cells that have become less active with age, stimulating cell growth for overall skin rejuvenation to create a healthier ecosystem

Consistent treatment with s4S SOLUTION™ is a safe and natural way to restore and maintain youthful, healthy skin.
